ชยพล ช้วยบำรุง

JUNIOR SOFTWARE DEVELOPER

Bangkok, Thailand 099-282-7106 Padthaix@gmail.com github.com/Padthaix linkedin.com/in/chayapol-chuybamrung

PROFILE

Fourth-year Computer Science student with practical experience in web development, AI, computer vision, and robotics. International research experience in Japan and South Korea, with proven student leadership at Bangkok University.

EDUCATION

Bangkok University Expected 2027
Bachelor of Science in Computer Science · School of Information Technology and Innovation

Hanyang University ERICA, South Korea — Exchange Student and Scholarship Recipient

EXPERIENCE & LEADERSHIP

Technical Intern · Kanagawa Institute of Technology, Japan 2025

- Developed an AI-based natural-environment observation system under Prof. Kosuke Takano.
- Applied Python, OpenCV, language models, and robotics in an international research team.

Computer Science Student President · Bangkok University 2025

- Represented Computer Science students as a faculty committee member.
- Led event planning, task assignment, staff coordination, and on-site operations.

SELECTED PROJECTS

Equitable AI Detection · Paper Award — Developed and evaluated a hybrid AI-text detection framework using stylometry and language-proficiency analysis.

Natural Environment Observation AI — Built a robotic observation system using Python, OpenCV, computer vision, and language models.

ChatJai AI Chatbot — Independently built an n8n chatbot with contextual memory, reminders, and personalized conversations.

Tutor Website · Ongoing Client Project — Developing video management, CRUD, administration, and POS features for a learning platform.

SKILLS

Languages: JavaScript, Python, Java, Go, SQL
Web: HTML, CSS, React, Next.js, Vite | **AI:** PyTorch, OpenCV, LLM integration
Tools: GitHub, VS Code, n8n | **Professional:** Leadership, teamwork, project coordination
